

For me personally the course cemented things I have been learning 'on the job' (generally by doing my own research) and put it all into context. Enormously helpful!

MG, Department of Health and Human Services

I really enjoyed this course. It was very well presented, encouraged interactions between participants and was useful and interesting. Thanks!

BW, Australian Antarctic Division

I enjoyed these two days very much. I had no idea about project management before but now have a huge knowledge of it that I can take away and use.

AS, Tasmanian Polytechnic

Lots of practical examples were useful to reinforce techniques required for project management. Interesting discussions generated. Thanks!

CM, University of Tasmania

What to do next

You can enrol on-line for Managing Successful Projects [here](#).

You can read about studying for a Certificate IV or Diploma in Project Management with NDA [here](#).

If you would like to learn more, please either reply to this email or call NDA on 1300 765 736.

With warm regards

Nigel Davies
Director, NDA
